

Get Your Sparks Flying

Welding

SW ABE (Adult Education) in partnership with Workforce (PIC), the Marshall School District & MN West offers FREE Welding training classes throughout the year.

We not only offer the training class, we make sure you have the skills you need to succeed in the training. You will need to register with our programs, complete some testing to determine what skills you may need to improve. All students will need to complete some online tasks to prepare for the training.

The trainings are offered 2-3 times a year. There is a class size limit so get the process started as soon as possible.
